Quito, Ecuador

I enjoy discovering what each opportunity has to teach, always finding something intriguing to see and do.

Skills

Development | React, Angular js, Flutter, NodeJS, TypeScript, Javascript, Java, RxJS, Redux, Tailwind, MUI, Html, Css, Wordpress, Git

Others | Aws Lambda y Cognito, PostgreSQL, DynamoDB, Firebase: Storage, Authentication, Cloud Messaging, Stripe

Soft Skills | Proactive, Adaptable, Self-taught, Time Management, Project Management

Experience

Assistant project manager - Asitecno Cia Ltda. - Guayaquil, Ecuador - 10/2025-01/2026

- Supported the management of a document digitization and organization project for University of Arts of Guayaquil. Coordinated a team of 10 people, assisting with planning, task assignment, and project execution through closure.
- Optimized workflows, tracked progress, prepared reports and presentations, and supported problem-solving to ensure on-time delivery.

Mobile / Flutter Developer - Pickup Jobs - Virginia, USA - 11/2024 - 03/2025

- I contributed to the development of both client and admin apps in Flutter for Android and iOS, creating a functional prototype (MVP).
- I implemented features using Firebase Storage, notifications with Firebase, and authentication with Google and Apple. Additionally, I integrated some functionalities with Stripe to manage test-mode payments.
- Worked with Trello, GitHub and Figma, and managed iOS distribution

Web Developer - Legal Badger - Guayaquil, Ecuador - 05/2021 - 05/2023

- Contributed to frontend (AngularJS, RxJS, Tailwind) to deliver a functional MVP, and supported backend development in Java/Spring Boot with RabbitMQ and PostgreSQL, supporting the full-stack developer responsible for the project.
- Helped implement a new frontend in React/Next.js with Redux and MUI, integrating AWS Lambda and AWS Cognito, and worked with databases such as DynamoDB. On the backend, assisted in Node.js/TypeScript backend and building endpoints and AWS integrations.
- Worked within Scrum (sprints) and used tools like Jira, Figma, Git (Br & PRs), Slack.

Professional Internships

- Intersa S.A. - Quito, Ecuador : Developed internal automation projects and client web applications. (02/2024- 06/2024). I also managed a document digitization project from planning to execution (09/2023 - 01/2024)
- Shockoe - VA, USA: Assisted in debugging and design improvements for websites based on approved designs (09/2019 - 12/2019)

Personal Projects

- Cryptocurrency Mining** - 2021 - 2025: Built and managed a cryptocurrency mining project with a total investment of approximately \$20,000. Designed, configured, and maintained hardware, from hardware selection to efficient mining optimization.
- Content Creator** - Since 2015 : Created and monetized multimedia content, developing skills in video and image editing as well as digital marketing. Current followers: +300k | generated +1000\$
- App puntovisas.com** - 07/2025: Founder & Developer. Web platform for managing and advancing U.S. embassy visa interview appointments. An automated system to monitor availability and instantly reschedule earlier appointment slots. Implemented a Python (Flask) backend with background processes and a React frontend. Achieved over \$250 in early sales with MVP version of the app.
- SlackBot with SpreadSheets** - 03/2021 : Developed a Slack bot that automates food order requests and stores them in a Google Spreadsheet. [Readme](#)
- Taski** - 12/2022 : Task manager built with React, Redux, and Tailwind. [Readme](#), [page](#)

Education

Universidad San Francisco de Quito - December 2024

Bachelor's in Computer Science

ES Dubai, UAE -

01/2026 - 05/2026 intensive English course starting with level: Upper-Intermediate

Virginia Commonwealth University

08/2019 - 12/2019: Completed an intensive English semester at VCU as part of an exchange program

Publications

Application of Transformer Models for Volcano Seismic Signals Classification -

August 2025: DOI:

[10.1109/ColCACI67437.2025.11230894](#)

SigTR-Net: A Volcano Seismic Signal Classifier Network-Based on Transformer Models -

February 2026:

DOI: Review until march 2026

Exchange Programs

Summer Work Experience in the USA Sant Ambroeus Restaurant, Southampton, NY (2022 - 2024)
Dopo Argento, Golden Pear Cafe, Publick house, Southampton, NY (2021-2023)

Languages

Spanish - Native

English B2 (Intermediate/ Advanced)

Interests

Audiovisual Production + running

Cryptocurrencies + Trading +

Saas + Vide coding
